

Submission of papers

Papers will be selected in two phases on the basis of:

- 1) an extended abstract (2 to 3 pages, single-spaced) with references to comparable works
- 2) the full-length paper (8 to 10 pages including references).

Abstracts and full papers will be peer-reviewed by at least two experts.

The best papers will be considered for a publication in the journal:

Advances in Transportation Studies - An International Journal

<http://host.uniroma3.it/riviste/ats/>

Authors will be notified by the RSS 2009 organisation committee.

Submission procedure and schedule

Abstract submission

March 15, 2009

Abstract acceptance notification to authors

April 13, 2009

Full length paper submission

June 7, 2009

Full length paper acceptance notification

July 8, 2009

Final paper due

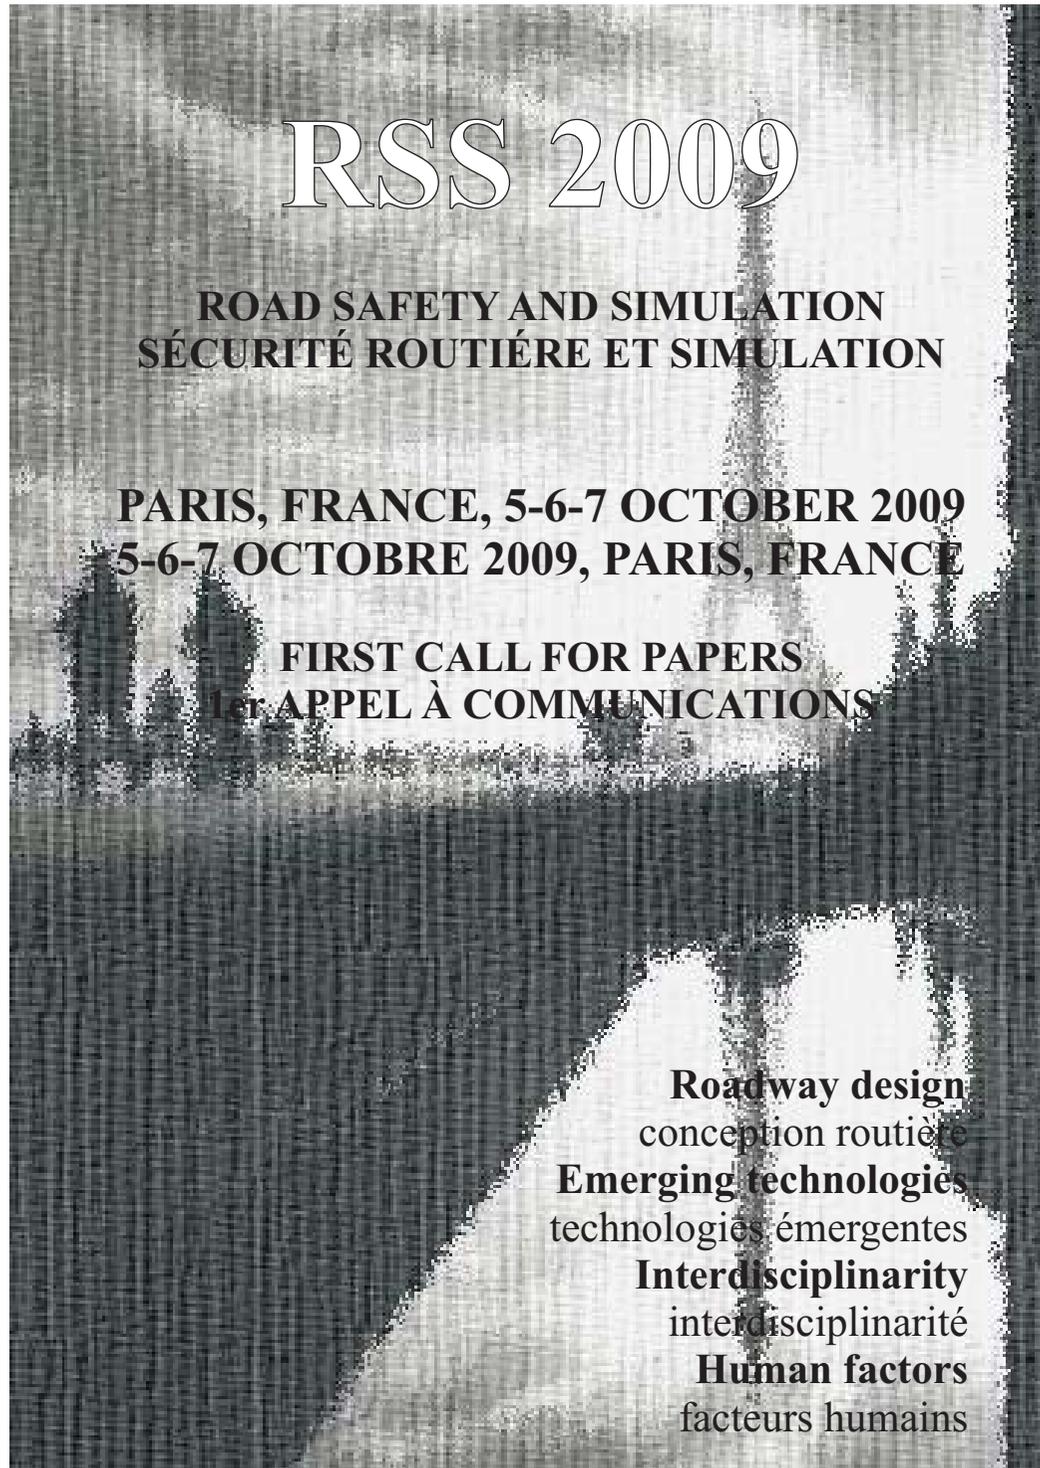

August 5, 2009

Abstracts should be sent by e-mail to:

rss2009@inrets.fr

They should include:

- 1) the title of the paper
- 2) the full names of the authors with their affiliation and full address including phone, fax and e-mail
- 3) the text of the abstract with the references

RSS 2009

ROAD SAFETY AND SIMULATION
SÉCURITÉ ROUTIÈRE ET SIMULATION

PARIS, FRANCE, 5-6-7 OCTOBER 2009
5-6-7 OCTOBRE 2009, PARIS, FRANCE

FIRST CALL FOR PAPERS
1er APPEL À COMMUNICATIONS

Roadway design
conception routière
Emerging technologies
technologies émergentes
Interdisciplinarity
interdisciplinarité
Human factors
facteurs humains

Soumission des communications

Les papiers seront sélectionnés en deux phases sur la base:

- 1) d'un résumé " long " (2 à 3 pages, simple interligne) comportant des références aux travaux comparables ;
- 2) du papier complet (8 à 10 pages incluant les références).

Les résumés et les papiers complets seront évalués par au moins deux experts.

Les meilleurs papiers seront considérés pour une publication dans le journal :

Advances in Transportation Studies - An International Journal

<Http://host.uniroma3.it/riviste/ats/>

Les auteurs seront notifiés par le comité d'organisation de RSS 2009.

Procédure de soumission et dates importantes

Soumission des résumés

15 mars 2009

Notification d'acceptation aux auteurs

13 avril 2009

Soumission des papiers " finaux "

7 juin 2009

Notification d'acceptation papiers " finaux "

8 juillet 2009

Remise des papiers " définitifs "

5 août 2009

Les résumés seront envoyés par mél à :

rss2009@inrets.fr

Ils incluront:

- 1) le titre du papier
- 2) le nom complet des auteurs avec leurs références complètes, incluant leur téléphone, fax et adresse mél
- 3) le texte du résumé avec les références

Scientific Committee RSS2009

Allen R.W. (Systems Technology Inc., USA)
Bella F. (University Roma Tre, Italy)
Benedetto A. (University Roma Tre, Italy)
Blaszczyk J. (Academy of Physical Education, Poland)
De Blasiis M.R. (University Roma Tre, Italy)
Dorn L. (Cranfield University, UK)
Espié S. (INRETS-MSIS, France)
Ferlazzo F. (University of Rome La Sapienza, Italy)
Garcia Garcia A. (Politechnic University of Valencia, Spain)
Guo Z. (Tongji University of Shanghai, China)
Hassan Y. (Carleton University, Canada)
Lu J.J. (University of South Florida, USA)
Manore M. (TRB, USA)
Manstetten D. (Bosch, Germany)
Niittymäki J. (Ramböll, Finland)
Papelis Y. (University of Central Florida, USA)
Psarianos B. (Technical University of Athens, Greece)
Reimer B. (MIT Cambridge, USA)
Svensson Å. (Lund University, Sweden)
Tarko A. (Purdue University, USA)
Teasdale N. (Laval University, Canada)
Zakowska L. (Polytechnic of Krakow, Poland)

RSS Permanent Steering Committee

Andrea Benedetto (University of Roma Tre, Italy)
Wade Allen (STI, USA)
Stéphane Espié (INRETS, France)
Michael Manore (TRB, USA)
Åse Svensson (Lund University, Sweden)
Andrew Tarko (Purdue University, USA)

RSS Executive Committee

Jose Maria Pardillo Mayora (Polytechnic University of Madrid, Spain)
Gary Davis (University of Minnesota, USA)
Alessandro Calvi (University Roma Tre, Italy)
Francesco Bella (University Roma Tre, Italy)
Fabrizio D'Amico (University Roma Tre, Italy)
Mick Rakauskas (University of Minnesota, USA)
Lidia Zakowska (Polytechnic of Krakow, Poland)
Nikolaos Gkikas (Loughborough University, UK)

The conference

The aim of the international RSS conference is to bring together interdisciplinary researchers and practitioners in the field of road safety and to allow them to exchange on advances in simulation techniques and their applications to safety analysis. A special emphasis is put on driving simulation and how this technique can help in roadway design and in studying emerging technologies with respect to human factors and their safety effects.

La conférence

L'objectif de la conférence internationale RSS est de réunir des chercheurs et des ingénieurs pluridisciplinaires dans le champ de la sécurité routière et de leur permettre d'échanger sur les techniques avancées de simulation. Un focus particulier est placé sur la simulation de conduite et sur les possibilités qu'offre cette technique pour la conception routière et l'étude des technologies émergentes, ceci tout en prenant en compte les facteurs humains.

Thematic

Driving simulation

- basic concepts (including simulator sickness)
- validation of driving simulators
- scenario modelling
- validation from the drivers' perspective
- related areas such as video analysis

Numerical simulation

- basic concepts
- validation
- virtual prototyping

Applications

- safety prediction
- road design
- ITS design
- eco-driving
- training, retraining (including impaired peoples)

Demonstrations

Monday 5 October

Driving simulators will be demonstrated at INRETS-MSIS (Pedestrian, motorbike, car).

Location: LCPC, 58 Bd Lefebvre, F75015 Paris, France

Location of the conference

Paris

Cité Internationale de Paris, F75013 Paris, France (to be confirmed)

Conference Fees

Before July 2009: 350 euros

After July 2009: 450 euros

Enquire for special rates for attendees from low and middle income countries

Gala dinner

Thursday 6 October
